SUMMARY

I specialize in creating Rest API, designing database, creating beautiful Frontend Web/Mobile, I primarily use Javascript, but picking up a new framework or language isn't a problem. I have good programming experience and I'm comfortable with the back-end and help front-end integration, also setting up or managing infrastructure

1 year of work experience as Wireless Engineer, played a key role in design and monitoring Wi-Fi Coverage in the 2018 Asian Games, Wi-Fi coverage audit at Soekarno-Hatta Airport and many sports stadiums.

5 years of work experience as IT Support, monitoring network, hardware, querying database,QA Testing
